26th October 2012

Dear Roy

Many thanks for the AGM Agenda. Sorry we are unable to attend.

Here in North Devon we are just about surviving, not much going on this year due to illnesses.

I have been attending the North Devon Hospital for chemotherapy because I developed a Bladder Cancer (now clear). Doctor Paul has been unwell for most of the year and Helen has been visiting her family most weekends, both father and sister being seriously ill, however now on the mend.

The runs that we have done have only been short distance around thirty miles or so, mainly flat routes.

Mike has been most patient with us and has kept us on the move.

We are hoping for a better 2013. As far as I know our breakaway group are doing OK, don't see much of them.

Yours awheel

Paul
